

**EAST
COAST**
SECURITY
SERVICES INC.

Note to Potential Clients

In order to serve you better, we can help you determine your exact needs when you contact us about possible services.

It is to your advantage to set out in detail what specific things you would like East Coast Security Services to do for you. For example, we can help you pinpoint what you would like security guards or flaggers to do and this will likely save you money in the long run.

When you approach us for a bid or to make a request, we will work to ensure that you get what you want and need. And we will do so quickly and effectively.

Prince Edward Island law provides rules, regulations and standards covering both security companies in particular and employees in general. East Coast Security Services Inc. meets or exceeds these standards and it can be useful for clients to be familiar with these since they have service and cost implications for all parties.

First there is the Private Investigators and Security Guards Act of PEI which outlines the training and licensing requirements of security guards.

Secondly there is the Employment Standards Act of PEI which deals with such things as minimum wages, overtime and terms of employment.
